

MeshPower – Ceramic Self-Grip Rolls Mesh sanding roll selfgrip 75mm x10m Gr80 Norton MESHPOWER

Artical Number: 69957326171

EAN:

SizeDerived: 75mm x10m

Description

Norton MeshPower is a multifunctional abrasive, designed with thousands of holes, created by the unique mesh matrix structure. This hole structure allows dust extraction in any application.

Features & Benefits

Ceramic grain provides the highest performance thanks to its micro-fracturing properties which mean the abrasive stays sharper and lasts longer than other rolls

Mesh backing enables excellent dust extraction, for a cleaner working environment and less clean up time

Ideal for a wide range of surfaces and applications including primer, filler, paint, lacquer, fibreglass, aluminium, gel coat and plastic in panel repair, spot repair and bumper repair on used or new panels

No-fil® technology prevents clogging for longer product life

Can be used wet or dry

The abrasive grain is impregnated with No-Fil® coating, which resists clogging and extends the product life

Self-grip backing for a quick and easy change

Works perfectly wet or dry, by hand or with a machine

Can be used on many materials, flat and contoured surfaces, by hand or machine

No defined hole pattern for fast, easy alignment with the back-up pad

Application Data

Material Application: PAINT & VARNISH, PLASTIC & COMPOSITES, WOOD & CHIPBOARD

Machine: Manual Sanding

Process: Sanding
